OXLEY THREADS

## VENUS

100%  
BONDED NYLON 6.6

### VENUS

*Venus is manufactured by Oxley Threads from the most versatile pre-stabilised performance filament - Nylon 6.6.*

### VENUS

*Venus, unlike other forms of Nylon polymer available, offers high seam strength, excellent abrasion resistance, seam stretch recovery and high heat resistance during sewing.*

### VENUS

*Venus is bonded at Oxley Threads using our own design of machines and a technique that has been developed over several decades. Bonding improves the sewing performance of the product at high speeds and increases machine efficiency during sewing.*

### VENUS

*Venus is available in a wide range of sizes and colours. It offers un-matched sewing performance and is extensively used in footwear, upholstery, leathersgoods and automotive industries.*
