**Re: US Government Sanctions on XPCC and Affiliates / Xinjiang Province**

Dear Valued Customer,

Following the placement of China's Xinjiang Production and Construction Corps ("XPCC") on the sanctions' list by the U.S. Department of Treasury as well as the planned Uyghur Forced Labor Prevention Act which would ban all products originating from the Xinjiang province, we have carried out due diligence proceedings at all pertinent suppliers to determine whether any of our suppliers have any ties to XPCC and / or the Xinjiang province in general.

As a result we herewith confirm that neither the affiliates of the AMANN Group nor our suppliers do have any direct or indirect business dealings in the Xinjiang Province or with companies to XPCC.

If you have any questions please do not hesitate to get in touch with your AMANN contact.

Best regards,

**Amann & Söhne GmbH & Co. KG**
